Since 1907

Vegetarian: An Old Indian Word Meaning "Bad Hunter"

We've just completed an exhausting and extensive auditing process, checking all records going back 100 plus years!

## Results Below!!!!

We are very pleased to report that we can find absolutely **no evidence** that Mutach's has **never left any empty buildings lying around to blight the local landscape!!!** That's right!!!! Zero, zip, nada.

As we have grown over the years we've just added on to our same 100 year old structure. See, we were being environmentally and civically responsible and we didn't even know it!!!!

Yep, yet another reason to get your **CUSTOM CUT MEATS** and **SPIRITS** from the guys who know you by name.

Our first two Beacon ads were "**NO TIRES**" and "**NOPE NOT A BANK OR HARDWARE**" Now **NO EMPTY BUILDINGS!** We just have great meat, great wines and beer, state liquor, lottery and groceries with no-tip carry-out.

All this from a 100 year old building with real wood floors, friendly employees who want to serve you and a spectacular view of the Islands from the front porch. How could you ask for more?

How about walking next door and visiting the famous Richmond Gallery and all our other quaint shops? Have lunch or dinner at the Marblehead Galley (often featuring our very own City Chicken) or at Avery's Cafe.. And on your way home stop at Ferguson's Cut Glass Gallery too!!

So make the short 10 minute drive to beautiful Marblehead and find out again what **REAL MEAT** and **REAL SERVICE IS.** Remember, weekly un-announced **specials & delivery** always available.
